NOVEMBER 4, 2021

Ms. SPANBERGER (for herself, Mr. CLINE, Mr. FITZPATRICK, and Mr. OWENS) introduced the following bill; which was referred to the Committee on the Judiciary

---

## A BILL

To direct the Attorney General to convene a national working group to study proactive strategies and needed resources for the identification and rescue of children from sexual exploitation and abuse, and for other purposes.

1       *Be it enacted by the Senate and House of Representa-  
2       tives of the United States of America in Congress assembled,*

**3 SECTION 1. SHORT TITLE.**

4       This Act may be cited as the “National Response to  
5       Exploitation and Sexual abuse of Children in Unaddressed  
6       Emergencies Act” or the “Child RESCUE Act”.

1   **SEC. 2. FINDINGS.**

2       Congress finds the following:

3               (1) The growing international trade in child  
4       sexual abuse material creates demand and incentive  
5       for the sexual assault of children throughout the  
6       United States.

7               (2) United States law enforcement efforts to  
8       combat child sexual exploitation have the potential  
9       to help multiple distinct groups of victims, includ-  
10      ing—

11               (A) children depicted in child sexual abuse  
12       material (CSAM) who are still being assaulted;

13               (B) children and adults whose victimiza-  
14       tion as a child continues to be viewed and  
15       shared online; and

16               (C) children who are being sexually as-  
17       saulted by adults who could be interdicted while  
18       accessing or sharing CSAM online.

19               (3) In congressional hearings held by the Com-  
20       mittee on Energy and Commerce of the House of  
21       Representatives in 2006, the Department of Justice,  
22       the Federal Bureau of Investigation, and State law  
23       enforcement leaders estimated that hundreds of  
24       thousands of adults in the United States are engag-  
25       ing in CSAM crimes.

1                             (4) A growing body of research—including aca-  
2 demic studies, analysis by the United States Sen-  
3 tencing Commission, and findings by law enforce-  
4 ment polygraphers—indicates that a majority of in-  
5 dividuals possessing and sharing CSAM are “dual  
6 offenders” who possess illegal imagery and also com-  
7 mit contact offenses.

8                             (5) According to a 2018 study by the National  
9 Center for Missing and Exploited Children  
10 (NCMEC), “in cases involving a single victim and  
11 single offender, actively traded cases were associated  
12 with having prepubescent victims. Actively traded  
13 cases were also associated with more egregious con-  
14 tent in terms of sexual activity, and more likely to  
15 involve familial offenders, particularly nuclear family  
16 members.”.

17                             (6) Law enforcement investigations of  
18 CyberTipline reports from the NCMEC frequently  
19 lead to the rescue of current child victims, thus ena-  
20 bling law enforcement to interdict offenders who are  
21 abusing children by circulating CSAM and also com-  
22 mitting contact offenses. In 2020, 21,700,000  
23 CyberTipline reports were submitted to NCMEC and  
24 approximately 200,000 CyberTipline reports were

1       made available to the 61 Internet Crimes Against  
2       Children (ICAC) units across the country.

3                     (7) United States law enforcement's ability to  
4       detect and interdict online traffic in CSAM provides  
5       a historic opportunity to locate sexual predators and  
6       rescue children through victim-centric investigations.  
7       In 2020, the Internet Crimes Against Children Child  
8       Online Protection Services (ICACCOPS) and other  
9       law enforcement investigative systems detected more  
10      than 325,000 unique IP addresses in the U.S. that  
11      were associated with CSAM and made available to  
12      the Internet Crimes Against Children (ICAC) Task  
13      Forces.

14                    (8) With inadequate resources, United States  
15      law enforcement agencies are increasingly unable to  
16      adequately respond to this rapidly growing number  
17      of CyberTips and other investigative leads, a prob-  
18      lem which also reduces the number of proactive un-  
19      dercover investigations and education activities they  
20      can conduct.

21                    (9) Investigations of these crimes are com-  
22      plicated by the increasing prevalence of encryption  
23      and anonymizing services available to offenders.

24   **SEC. 3. DEFINITIONS.**

25       In this Act:

1                             (1) CHILD SEXUAL ABUSE MATERIAL.—The  
2 term “child sexual abuse material” has the meaning

9 including an email address, Internet Protocol  
10 address, screen name, computer global unique identifier,  
11 phone number, or other information attributable  
12 to that person or location.

13                             (3) PROACTIVE POLICING.—The term  
14 “proactive policing” means a specialized, covert, or

19 child exploitation, or child sex trafficking crimes.

20                             (4) WORKING GROUP.—The term “Working  
21 Group” means the United States Working Group on

3 date of enactment of this Act, the Attorney General shall

6 Danger”, to study victim-centric policing strategies and  
7 resource needs to rescue children in the United States who  
8 are—

9                 (1) victims of child sexual abuse material; or  
10                 (2) victims of sexual abuse by individuals who

12                 crimes.

13         (b) PRIORITY.—In carrying out the study under sub-

17 material crimes.

24                 or possession of child sexual abuse material, includ-  
25                 ing the number of such individuals who—

1                             (A) could be interdicted by Federal, State,

4 nually known to social service agencies and  
5 other non-law enforcement child abuse inves-  
6 tigators, and whether or not those reports re-  
7 ceived a concurrent law enforcement investiga-  
8 tive response; and

9 (B) potential strategies and resources that  
10 could be used to ensure that offenders reported

14 crimes; and

15 (5) provide additional analysis and nonduplica-
